

# Water Block Wax P&M

00344  
EN

**Water Block Super Splash** was developed with one goal in mind: extreme hydrophobicity. The unique formula based on waxes and silicone polymers allows water to be repelled from the paintwork in a flash, which effectively reduces the adherence of dirt and makes it much easier to keep the car clean. **Water Block** is characterized by easy application and great durability; makes the paintwork shine and ensures effective protection. Suitable for lighter paintworks.

Directions: 1. Prepare the vehicle by washing it with a pH-neutral shampoo, drying it; cleaning its surface using a clay bar, cleaner or other product of this kind. 2. Apply the wax to the supplied sponge by lightly rubbing it on the wax's surface. 3. Spread a thin and even layer of wax on the paintwork, pressing lightly. 4. Wait until white residue appears on the paintwork. 5. Polish the residue with a clean and dry microfiber cloth, ! Never apply wax in direct sunlight or on hot components.

Contains: hydrocarbons, C9-C12, n-alkanes, isoalkanes, cyclics, aromatics (2-25%).

Flammable solid. Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Wear protective gloves/protective clothing. IF ON SKIN: Wash with plenty of water and soap. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Dispose of contents/container to properly labelled waste containers according to national law.
