

Fukupika Spray Advance Strong Type

00542
EN

Quick detailer for paintwork with excellent cleaning properties. It can be used after any hand wash, as a stand-alone protective coating or as a boost to previously applied waxes. Applied between washes, without the use of water, it effectively removes minor contaminants such as dust, fingerprints, water spots, and more. Instantly restores paintwork depth, gloss, and strong water repellency.

Directions: 1. Hand wash the car and dry it thoroughly. If you want to refresh the paintwork without using water, make sure that there are no particles or loose dirt on the surface. 2. Apply the agent to a small, dry and cool area of paint. 3. Polish the area with a soft microfibre until you achieve perfect shine. 4. Wipe off any agent residues with a second, dry microfibre to ensure the paint is free of streaks and reflections. ! Do not use in direct sunlight or on a hot car.

Components according to Regulation on detergents 648/2004/EC as amended: preservation agents (2-BROMO-2-NITROPROPANE-1,3-DIOL, OCTYLISOTHIAZOLINONE, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, IODOPROPYNYL BUTYL CARBAMATE).
