

Glaco Blade

04953
EN

Glaco Blade is a glass and plastic coating that effectively protects the windows and transparent elements of a vehicle and guarantees safe driving in rainy conditions. Thanks to its special formula, Glaco Blade can also be applied to headlights, helmet visors or motorbike windscreens, improving safety and comfort for drivers and riders, reducing the accumulation of dirt. The flexible applicator head allows for a quick and precise application. After polishing with the included microfiber, the product will take effect immediately.

Directions: 1. Before using the product, clean the surface to remove all dirt. In case of glass, prepare it using a dedicated cleaner – Glaco Compound Roll On or Compound Z. 2. Remove the applicator cap and by pressing the bottle lightly, spread the liquid evenly with the applicator on the dry surface. 3. Wipe off immediately with the included microfibre. ! No need to wait for the product to bind with the surface.

Contains: propan-2-ol.

Highly flammable liquid and vapour. Causes serious eye irritation. May cause drowsiness or dizziness. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing vapours/spray. Wear protective gloves/eye protection. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Dispose of contents/container to properly labelled waste containers according to national law.
