

Micro Liquid Compound Set L&M

09062
EN

Micro Liquid Compound is a chemical cleaner that will help you prepare your car paint before application of protective coatings. It removes even the most stubborn dirt marks, that other conventional products won't handle. Besides its unusual cleaning capabilities, Micro Liquid Compound will also mask minor scratches on your car paint surface, restoring the original gloss to it.

Directions: 1. Prepare your vehicle by washing it thoroughly with pH neutral shampoo and drying. 2. Apply a small amount of product onto the black side of the included sponge. 3. Polish the surface thoroughly. 4. Wipe off any remains.

The product is not classified as hazardous for human health and life and for the environment. Keep out of reach of children. Dispose of contents/container to properly labelled waste containers according to national law.

Components according to Regulation on detergents 648/2004/EC as amended: aliphatic hydrocarbons < 5% preservation agents (TRIS(N-HYDROXYETHYL) HEXAHYDROTRIAZINE).
