

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Trade name: 10162 Authentic Premium (E)

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: treatment of automobile painted surfaces.

Uses advised against: not determined.

### 1.3. Details of the supplier of the safety data sheet

Supplier: Nowy Samochód S.A.

Address: ul. Zbyszka Cybulskiego 3, 00-725 Warszawa, PL

Telephone/fax: +48 602-444-356

E-mail address for a competent person responsible for SDS: info@soft99.pl

### 1.4. Emergency telephone number

112 (general emergency telephone number)

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

Flam. Sol. 1 H228

Flammable solid.

### 2.2. Label elements

Hazard pictograms and signal words

Hazardous components placed on the label

None.

Hazard statements

H228 Flammable solid.

Precautionary statements

P102 Keep out of reach of children.  
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
P241 Use explosion-proof electrical/ventilating/lighting equipment.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.  
P501 Dispose of contents/container to properly labelled waste containers according to national law.

Additional information

EUH066 Repeated exposure may cause skin dryness or cracking.

### 2.3. Other hazards

Product does not contain components, which meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

The product does not contain substances included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 % by weight.

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Not applicable.

### 3.2. Mixtures

|   |   |               |
|---|---|---------------|
| CAS number: —<br>EC number: 918-167-1<br>Index number: —<br>Registration number:<br>01-2119472146-39-XXXX | <b>hydrocarbons, C11-C12, isoalkanes, &lt;2% aromatics</b><br>Flam. Liq. 3 H226, Asp. Tox. 1 H304<br>EUH066 <sup>1)</sup> | 75% < C < 85% |
|---|---|---------------|

<sup>1)</sup> Additional hazard statement.

Full text of each H phrase is given in section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Contact with skin

Take off contaminated clothing. Wash the exposed parts of the skin thoroughly with water and soap. Consult a doctor if disturbing symptoms appear.

#### Contact with eyes

Protect non-irritated eye, remove contact lenses. Rinse contaminated eyes thoroughly with water for 10 - 15 minutes. Avoid powerful water stream – risk of cornea damage. Consult a ophthalmologist if disturbing symptoms appear.

#### Ingestion

Consult a doctor, show the packaging or label. Do not induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person.

#### After inhalation

Remove the victim to fresh air, keep warm and at rest. Consult a doctor if disturbing symptoms appear.

### 4.2. Most important symptoms and effects, both acute and delayed

#### Contact with skin

The product may cause redness, burning sensation, skin dryness.

#### Contact with eyes

The product may cause burning sensation, tearing, conjunctival redness.

#### Ingestion

May cause nausea, vomiting, abdominal pains.

#### After inhalation

Exposure by this route does not cause negative health effects.

#### Effects of exposure

There are no known significant effects or critical hazards with the correct use of the product.

### 4.3. Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured. Symptomatic treatment.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media: carbon dioxide, water spray, sand, extinguishing foam resistant to alcohols, extinguishing powder.

Unsuitable extinguishing media: water jet – risk of the propagation of the flame.

## 5.2. Special hazards arising from the substance or mixture

During the fire may produce harmful gases containing e.g. carbon monoxides, nitrogen oxides, other hazardous unidentified products of thermal decomposition. Do not inhale combustion products, they can be dangerous for human health.

## 5.3. Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Cool down the containers that are endangered by fire with a water spray from a safe distance. Collect used extinguishing media.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. Ensure that only the trained personnel removes the effects of the accident. In case of large spills, isolate the exposed area. Eliminate all sources of ignition - do not use an open flame, do not smoke, do not use sparking tools, etc. Caution: risk of slipping on the released product. Wear shoes with anti-slip soles. Use personal protective equipment.

### 6.2. Environmental precautions

Do not allow the product to get into the sewage system, surface waters and soil. In case of release of large amounts of the product, it is necessary to take appropriate steps to prevent it from spreading into the environment. Notify relevant emergency services.

### 6.3. Methods and material for containment and cleaning up

Collect the released product mechanically. Transfer the collected material for recycling or treat it as waste, placing it in properly labeled containers. Continue to follow the applicable regulations.

### 6.4. Reference to other sections

Appropriate conduct with waste product – see section 13. Personal protective equipment – see section 8.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Provide general and / or local ventilation in the workplace. Use personal protective equipment. Before break and after work wash hands carefully. Keep the unused containers tightly closed. Do not eat, drink and smoke during the work. Avoid eyes and skin contamination. Eliminate sources of ignition - do not use an open flame, do not smoke, do not use sparking tools and clothes made of fabrics susceptible to static electricity.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in properly labeled, sealed packages in a dry, cool and well-ventilated place. Keep away from incompatible materials (see subsection 10.5). Keep away from, foodstuffs and animal feed . Keep away from sources of fire. Smoking, using open fire and sparking tools is prohibited in the warehouse.

### 7.3. Specific end use(s)

No information about other uses than those mentioned in subsection 1.2.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Occupational Exposure Limit Values

The product does not contain components subject to exposure controls in the workplace.

Legal Basis: EH40/2005 Workplace exposure limits. Fourth Edition 2020.

#### Recommended control procedures

Not applicable.

#### DNEL and PNEC

Not applicable.

## 8.2. Exposure controls

### Industrial hygiene

Use the product in accordance with good occupational hygiene and safety practices. Do not eat, drink and smoke during the work. Before break and after work wash hands carefully. Ensure adequate general and/or local ventilation at the workplace. If during work processes there is a risk of clothing fire on the employee - no more than 20 m in a horizontal line from the stations where these processes are performed, emergency showers (safety showers) for washing the whole body and separate showers (showers) for eye washing should be installed.

### Individual protection measures

The necessity to use and the selection of appropriate personal protective equipment should take into account the type of risk posed by the product, working conditions and the way of handling the product. The personal protective equipment used must meet the requirements of Regulation (EU) 2016/425 and the relevant standards. The employer is obliged to provide protection measures appropriate to the activities performed and meeting all quality requirements, including their maintenance and cleaning. Any contaminated or damaged PPE must be replaced immediately.

### Hand protection

Use protective gloves resistant to chemicals according to EN 374. Select the material for the gloves individually at the workplace. Recommended material for gloves: PVC.

The glove material has to be impermeable and resistant to the product. The choice of material for protective gloves should be made taking into account the breakthrough times, permeation rate and degradation. Moreover, the selection of the appropriate gloves does not only depend on the material, but also on other quality characteristics and varies from manufacturer to manufacturer. The exact breakthrough time has to be obtained from the glove manufacturer and it must be observed.

### Body protection

Depending on the performed task, use protective clothing appropriate to the potential hazard. In case of a prolonged contact with the product, use protective clothing made of coated or impregnated fabrics.

### Eye protection

If there is a risk of eye contamination, use safety glasses in accordance with the EN 166 standard.

### Respiratory protection

Not required with adequate ventilation. In case of the formation of vapours and aerosols, use absorbing equipment or absorbing and filtering equipment with a suitable protection class (class 1/protection against gases or vapours with a concentration in the air volume not exceeding 0.1%, class 2 / protection against gases or vapours with a concentration in the air not exceeding 0.5%, class 3 / protect against gases or vapours at concentrations in the air volume to 1%). In cases where the oxygen concentration is  $\leq 19\%$  and / or maximum concentration of toxic substances in the air is  $\geq 1.0\%$  by volume, isolating equipment should be used.

### Thermal hazards

Not applicable.

### Environmental exposure controls

Prevent direct release to drains/ surface waters. Do not contaminate surface waters and drainage ditches with chemicals or used containers. Released product or uncontrolled spills to surface waters should be reported to appropriate authorities in accordance with local and national legislations. Dispose as chemical waste, in accordance with local and national legislation.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|   |                            |
|---|----------------------------|
| Physical state:   | solid                      |
| Colour:   | light yellow               |
| Odour:  | faint                      |
| Melting point/freezing point:                             | not determined             |
| Boiling point or initial boiling point and boiling range: | 185-199 °C (EC: 918-167-1) |
| Flammability:   | flammable                  |

|  |                              |
|--|------------------------------|
| Lower and upper explosion limit:                   | 0,6-6 % vol. (EC: 918-167-1) |
| Flash point:                                       | 60 °C (EC: 918-167-1)        |
| Auto-ignition temperature:                         | 417 °C (EC: 918-167-1)       |
| Decomposition temperature:                         | not applicable               |
| pH:  | not determined               |
| Kinematic viscosity:                               | not applicable               |
| Solubility:  | not soluble in water         |
| Partition coefficient n-octanol/water (log value): | not applicable               |
| Vapour pressure:                                   | not applicable               |
| Density and/or relative density:                   | not determined               |
| Relative vapour density:                           | not applicable               |
| Particle characteristics:                          | not determined               |

## 9.2. Other information

No additional tests.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Product is reactive. It does not go under hazardous polymerization. See also subsection 10.3-10.5.

### 10.2. Chemical stability

The product is stable under normal conditions of use and storage.

### 10.3. Possibility of hazardous reactions

The product reacts exothermically with strong oxidants.

### 10.4. Conditions to avoid

Avoid heat sources, open flames, sparking tools and direct sunlight.

### 10.5. Incompatible materials

Avoid contact with following materials: strong oxidants.

### 10.6. Hazardous decomposition products

Not known.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

|  |                              |
|--|------------------------------|
| <b>hydrocarbons, C11-C12, isoalkanes, &lt;2% aromatics</b> |                              |
| LC <sub>50</sub> (inhalation, rat)                         | > 4951 mg/m <sup>3</sup> /4h |
| LD <sub>50</sub> (oral, rat)                               | > 5000 mg/kg                 |

#### Skin corrosion/irritation

Based on available data, the classification criteria are not met.

#### Serious eye damage/irritation

Based on available data, the classification criteria are not met.

#### Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

#### Germ cell mutagenicity

Based on available data, the classification criteria are not met.

## Carcinogenicity

Based on available data, the classification criteria are not met.

## Reproductive toxicity

Based on available data, the classification criteria are not met.

## STOT-single exposure

Based on available data, the classification criteria are not met.

## STOT-repeated exposure

Based on available data, the classification criteria are not met.

## Aspiration hazard

Based on available data, the classification criteria are not met.

## Information on likely routes of exposure

Exposure route: eye exposure, skin exposure, inhalation, ingestion. For more information on the impact of each possible route of exposure, see subsection 4.2.

## Symptoms related to the physical, chemical and toxicological characteristics

No data.

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

No data.

## 11.2. Information on other hazards

### Endocrine disrupting properties

The components of the mixture are not assessed as endocrine disrupting substances.

### Other information

No data.

## SECTION 12: Ecological information

### 12.1. Toxicity

|  |
|--|
| <b>Mixture</b>   |
| The product is not classified as hazardous to the aquatic environment. |

### 12.2. Persistence and degradability

No data.

### 12.3. Bioaccumulative potential

|  |                        |                |
|--|------------------------|----------------|
| hydrocarbons, C11-C12, isoalkanes, <2% aromatics | log Po/w ≤ 1,99 - 6,73 | method: (Q)SAR |
|  | BCF = —                | method: (Q)SAR |

### 12.4. Mobility in soil

Mobility of components of the mixture in soil depends on the hydrophilic and hydrophobic properties and biotic and abiotic conditions of soil, including its structure, climatic conditions, seasons and soil organisms.

### 12.5. Results of PBT and vPvB assessment

Product does not contain components, which meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

### 12.6. Endocrine disrupting properties

The components of the mixture are not assessed as endocrine disrupting substances.

### 12.7. Other adverse effects

The mixture is not classified as hazardous to the ozone layer. Consider other harmful effects of individual components of the mixture on the environment (eg, global warming potential).

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

#### Recommendations for the product

The waste product should be recovered or disposed of in authorized incineration plants or waste disposal / neutralization plants, in accordance with applicable regulations. Do not empty into drains. The waste code should be given in the place of its formation.

#### Recommendations for used packaging

Reuse / recycle / eliminate empty containers in accordance with the local legislation. Only completely empty containers can be reused.

EU legal acts: directives of the European Parliament and of the Council: 2008/98 / EC as amended and 94/62 / EC as amended.

## SECTION 14: Transport information

### 14.1. UN number or ID number

UN 1325

### 14.2. UN proper shipping name

#### **ADR**

FLAMMABLE SOLID, ORGANIC, N.O.S.

[HYDROCARBONS, C11-C12, ISOALKANES, <2% AROMATICS]

#### **IMDG**

FLAMMABLE SOLID, ORGANIC, N.O.S.

[HYDROCARBONS, C11-C12, ISOALKANES, <2% AROMATICS]

#### **ICAO/IATA**

FLAMMABLE SOLID, ORGANIC, N.O.S.

[HYDROCARBONS, C11-C12, ISOALKANES, <2% AROMATICS]

### 14.3. Transport hazard class(es)

4.1

### 14.4. Packing group

II

### 14.5. Environmental hazards

**ADR** no

**IMDG** no

**ICAO/IATA** no

### 14.6. Special precautions for user

Use personal protective equipment according to section 8 when handling the product. Avoid sources of heat and fire.

### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable.

#### Additional data

|                  |                                |          |

## SECTION 15: Regulatory information

---

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

ADR Agreement concerning the International Carriage of Dangerous Goods by Road.

IMDG Code International Maritime Dangerous Goods Code

IATA Dangerous Goods Regulations

1907/2006/EC REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (as amended).

1272/2008/EC REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (as amended).

2020/878/EU COMMISSION REGULATION of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals..

2008/98/EC DIRECTIVE OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 19 November 2008 on waste and repealing certain Directives (as amended).

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste as amended

The components of the mixture are not included in Annex XVII of the REACH Regulation.

The components of the mixture are not included in Annex XIV of the REACH Regulation.

### 15.2. Chemical safety assessment

A Chemical Safety Assessment is not required for mixtures.

## SECTION 16: Other information

---

### Full text of H phrases mentioned in section 3

|        |   |
|--------|---|
| EUH066 | Repeated exposure may cause skin dryness or cracking. |
| H226   | Flammable liquid and vapour.                          |
| H304   | May be fatal if swallowed and enters airways.         |

### Clarification of abbreviations and acronyms

# Safety Data Sheet

Date of issue: 09.11.2015  
Date of update: 21.07.2022  
Version: 5.0/EN

[Prepared in accordance with Regulation EC 1907/2006 (REACH), as amended]

---

## Trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training. Personnel related with the transport of hazardous substances in accordance with the ADR agreement should be trained and should obtain proper certification in a range of their obligations (general training, workplace training, safety training).

## Key literature references and sources of data

This SDS was prepared on the basis of the safety data sheet provided by the manufacturer, literature data, online databases (e.g. ECHA, TOXNET, COSING), our knowledge and experience, taking into account the current legislation.

## Procedures used for the mixture classification according with Regulation 1272/2008/EC as amended

Flam. Sol. 1 H228                                based on the manufacturer's data

## Additional information

Changes:    section: 1-16  
SDS issued by:                                 THETA Consulting Sp. z o.o.
