

POLISHING COMPOUND

10321
EN

Innovative, medium abrasive polishing paste designed to remove light scratches and holograms from paint. Safely restores the shine of the paint. The paste does not contain silicone, which speeds up the polishing process.

Directions: To be used using a polishing machine and polishing pads of appropriate hardness. Remove any remaining paste with a microfiber towel.

Contains: pin-2(3)-ene.

May cause an allergic skin reaction. May cause damage to organs through prolonged or repeated exposure. Toxic to aquatic life with long lasting effects. Do not breathe mist/vapours/spray. Avoid release to the environment. IF ON SKIN: Wash with plenty of water and soap. If skin irritation or rash occurs: Get medical advice/attention. Dispose of contents/container to properly labelled waste containers according to national law.
