

Fusso Coat F7 All Color

10339
EN

Fusso Coat F7 All Colours is a wax coating in liquid form that is perfect for detailing novices and pros alike. Works great on any vehicle, and can be safely applied even on PPF and matte finishes for extra protection and hydrophobicity! As all Fusso-branded products, the F7 utilises Soft99's flagship Fusso technology, a chemical solution based on fluoropolymers. This allows the product to prevent dirt from gathering, while TSI (Top Shield Impervious) and WARP (Wipe Assistance Radical Power) technologies prolong the effect to up to 7 months! Suitable for all paint colours.

Directions: 1. Prepare the vehicle by washing it with a pH-neutral shampoo, drying it; cleaning its surface using a clay bar, cleaner or other product of this kind. 2. Apply a moderate amount of the product on the yellow side of the included sponge applicator, spread a thin, even layer on the car's body. 3. Wait about 10-15 minutes, then polish the residue with a clean and dry microfiber cloth. ! Never apply wax in direct sunlight or on hot components, ! After every wash, boost the effect of the coating with dedicated Soft99 Fusso Coat Speed & Barrier quick detailer.

Contains: hydrocarbons, C10-C12, isoalkanes, <2% aromatics.

Flammable liquid and vapour. May be fatal if swallowed and enters airways. Toxic to aquatic life with long lasting effects. Keep out of reach of children.
